**Javatrekker** Dean Cycon 2007-10-17 In each cup of coffee we drink the major issues of the twenty-first century-globalization, immigration, women's rights, pollution, indigenous rights, and self-determination-are played out in villages and remote areas around the world. In Javatrekker: Dispatches from the World of Fair Trade Coffee, a unique hybrid of Fair Trade business, adventure travel, and cultural anthropology, author Dean Cycon brings readers face-to-face with the real people who make our morning coffee ritual possible. Second only to oil in terms of its value, the coffee trade is complex with several levels of middlemen removing the 28 million growers in fifty distant countries far from you and your morning cup. And, according to Cycon, 99 percent of the people involved in the coffee economy have never been to a coffee village. They let advertising and images from the major coffee companies create their worldview. Cycon changes that in this compelling book, taking the reader on a tour of ten countries in nine chapters through his passionate eye and unique perspective. Cycon, who is himself an amalgam-equal parts entrepreneur, activist, and mischievous explorer-has traveled extensively throughout the world's tropical coffeelands, and shows readers places and people that few if any outsiders have ever seen. Along the way, readers come to realize the promise and hope offered by sustainable business principles and the products derived from cooperation, fair pricing, and profit sharing. Cycon introduces us to the Mamos of Colombia-holy men who believe they are literally holding the world together-despite the severe effects of climate change caused by us, their "younger brothers." He takes us on a trip through an ancient forest in Ethiopia where many

believe that coffee was first discovered 1,500 years ago by the goatherd Kaldi and his animals. And readers learn of Mexico's infamous Death Train, which transported countless immigrants from Central America northward to the U.S. border, but took a horrifying toll in lost lives and limbs. Rich with stories of people, landscapes, and customs, Javatrekker offers a deep appreciation and understanding of the global trade and culture of coffee. In each cup of coffee we drink the major issues of the twenty-first century-globalization, immigration, women's rights, pollution, indigenous rights, and self-determination-are played out in villages and remote areas around the world. What is Fair Trade Coffee? Coffee prices paid to the farmer are based on the international commodity price for coffee (the "C" price) and the quality premium each farmer negotiates. Fair Trade provides an internationally determined minimum floor price when the C plus premium sinks below \$1.26 per pound for conventional and \$1.41 for organics (that's us!). As important as price, Fair Trade works with small farmers to create democratic cooperatives that insure fair dealing, accountability and transparency in trade transactions. In an industry where the farmer is traditionally ripped off by a host of middlemen, this is tremendously important. Cooperatives are examined by the Fairtrade Labeling Organization (FLO), or the International Fair Trade Association (IFAT), European NGOs, for democratic process and transparency. Those that pass are listed on the FLO Registry or become IFAT members. Cooperatives provide important resources and organization to small farmers in the form of technical assistance for crop and harvest improvement, efficiencies in processing and shipping, strength in negotiation and an array of needed social services, such as health care and credit. Fair Trade also requires pre-financing of up to sixty percent of the value of the contract, if the farmers ask for it. Several groups, such as Ecologic and Green Development Fund have created funds for pre-finance lending.

**Unworthy** Anneli Rufus 2014-05-15 "Self-loathing is a dark land studded with booby traps. Fumbling through its dark underbrush, we cannot see what our trouble actually is: that we are mistaken about ourselves. That we were told lies long ago that we, in love and loyalty and fear, believed. Will we believe ourselves to death?" —from Unworthy As someone who has struggled with low self-esteem her entire life, Anneli Rufus knows only too well how the world looks through the eyes of those who are not comfortable in their own skin. In Unworthy, Rufus boldly explores how a lack of faith in ourselves can turn us into our own worst enemies. Drawing on extensive research, enlightening interviews, and her own poignant experiences, Rufus considers the question: What personal, societal, biological, and historical factors coalesced to spark this secret epidemic, and what can be done to put a stop to it? She reveals the underlying sources of low self-esteem and leads us through strategies for positive change.

*French Foreign Legionnaire vs Viet Minh Insurgent* Martin Windrow 2018-09-20 The French Indochina War (1946-54) was the largest of the first generation of post-World War II wars of decolonization as Vietminh insurgents sought to topple their French colonial masters. It was also unique in that the insurgency evolved from low-level guerrilla activity to mobile operations by a large conventional army which finally defeated a large European-led expeditionary force, supported by artillery, armour and airpower. The war's progress was almost entirely dictated by the extreme terrain, and by the Chinese support enjoyed by the Vietnamese insurgents. The actions explored in this study cover three contrasting phases of the war in Tonkin during 1948-52, setting both sides on the path that would lead to the conflict's climactic encounter at Dien Bien Phu in 1954. Featuring specially commissioned artwork and drawing upon a range of sources, this meticulously researched study casts new light on the troops who fought on both sides in this evolving and momentous conflict.

**Scarce Heard Amid the Guns** John Conrad 2011-09-15 Scarce Heard Amid the Guns tears the curtain of myth away, providing a rare, visceral inner perspective of the various Canadian peacekeeping missions. "In the Service of Peace" — simple words that adorn the obverse of

every United Nations medal, yet behind this eloquence lurks violence and an unheralded heroism invisible to an often misunderstood quarter of Canada's military history. The Canadian contribution to peacekeeping is enormous but ensnared in a lethal mythology that has seen it abandoned to popular folklore. From the early and intrinsic Canadian contribution to the U.N. Emergency Force in 1956, through the blur of the frenetic 1990s down to the anemic level of contemporary Canadian participation, it is difficult to make sense of the wide circumference of this significant legacy. Until now. Scarce Heard Amid the Guns provides an incisive perspective on the various Canadian missions: their omnipresent doubt and un-telegraphed terrors. This insider's guided tour of our military at war in peace introduces us to some of the men and women who carried the day — ordinary Canadians who did extraordinary things and continue to bear the scars of forgotten fields in their bones.
