Reid 2020-01-15 The new, fully-updated edition of the acclaimed textbook covering 200 years of African history A History of Modern Africa explores two centuries of the continent’s political, economic, and social history. This thorough yet accessible text help readers to understand key concepts, recognize significant themes, and identify the processes that shaped the modern history of Africa. Emphasis is placed on the consequences of colonial rule, and the links between the precolonial and postcolonial eras. Author Richard Reid, a prominent scholar and historian on the subject, argues that Africa’s struggle for economic and political stability in the nineteenth century escalated and intensified through the twentieth century, the effects of which are still felt in the present day. The new third edition offers substantial updates and revisions that consider recent events and historiography. Greater emphasis is placed on African agency, particularly during the colonial period, and the importance of the long-term militarization of African political culture. Discussions of the postcolonial period have been updated to reflect recent developments, including those in North Africa. **Luka Jantjie** Kevin Shillington 2011 Luka Jantjie is today a largely forgotten hero of resistance to British colonialism. His place in South African history has tended to be overshadowed by events elsewhere in the region. This book attempts to redress the balance by recording his remarkable story. In 1870, at the beginning of the Kimberley diamond mining boom that was to transform southern Africa, Luka Jantjie was the first independent African ruler to lose his land to the new colonialists, who promptly annexed the diamond fields. His outspoken stand against the hypocrisy of colonial 'justice' earned him the epithet: "a wild fellow who hates the English". As the son of an early Christian convert, Luka was brought up to respect peace and non-violence; his boycott of rural trading stores in the early 1890s was perhaps the earliest use of non-violent resistance in colonial South Africa. His steady refusal to bow to colonial demands of subservience intensified the enmity of local colonists determined to 'teach him a lesson'. As many of his people succumbed to colonial pressures, Luka was twice forced to take up arms to defend himself and his people from colonial attacks. His life ended in a dramatic and heroic last stand in the ancestral sanctuary of the Langeberg mountain range; its tragic consequences stretched far into the next century.

**The Idea of Development in Africa** Corrie Decker 2020-10-29 The Idea of Development in Africa challenges prevailing international development discourses about the continent, by tracing the history of ideas, practices, and 'problems' of development used in Africa. In doing so, it offers an innovative approach to examining the history and culture of development through the lens of the development episteme, which has been foundational to the 'idea of Africa' in western discourses since the early 1800s. The study weaves together an historical narrative of how the idea of development emerged with an account of the policies and practices of development in colonial and postcolonial Africa. The book highlights four enduring themes in African development, including their present-day ramifications: domesticity, education, health, and industrialization. Offering a balance between historical overview and analysis of past and present case studies, Elisabeth McMahon and Corrie Decker demonstrate that Africans have always co-opted, challenged, and reformed the idea of development, even as the western-centric development episteme presumes a one-way flow of ideas and funding from the West to Africa.

**Albert René** Kevin Shillington 2014 Albert Rene is a towering figure of modern Seychelle, an archipelago in the Indian Ocean, east of mainland Southeast Africa and northeast of the island of Madagascar. He arouses intense emotions in both admirers and opponents. This first full-length biography analyzes Rene's early years, his political awakening, and his struggle for full electoral support in the face of strong opposition. Frustrated by the slow pace of Seychelle's economic development and the extent of social division along racial lines, Albert Rene took the fateful decision to seize power by coup d'etat in 1977. It is a dramatic story, which includes an attempted invasion by South African mercenaries. In 1992-93, Rene finessed a change from a one-party socialist state to multi-party rule. He bequeathed to his successor a transformed nation that had shed its oppressive racial hierarchy and had attained the highest social and economic indicators within the African region. Underlying the political drama is the story of the compassion and romance of the all too human man that is Albert Rene. The book adds authority to this account by the depth of research through archives and contemporary newspapers, as well as extensive interviews covering both his political and personal life, the latter including interviews with all three of Albert Rene's wives. \*\*\* "A saga of political drama, struggle, and ultimately hope...fascinating from cover to cover, and highly recommended especially for public and college library biography collections." -- Midwest Book Review, Library Bookwatch, The Biography Shelf, October 2014 [Subject: Biography, Politics, History, African Studies]Ã?Ã?Ã?Ã?Ã?Ã?

**The Fortunes of Africa** Martin Meredith 2014-10-14 Africa has been coveted for its riches ever since the era of the Pharaohs. In past centuries, it was the lure of gold, ivory, and slaves that drew fortune-seekers, merchant-adventurers, and conquerors from afar. In modern times, the focus of attention is on oil, diamonds, and other valuable minerals. Land was another prize. The Romans relied on their colonies in northern Africa for vital grain shipments to feed the population of Rome. Arab invaders followed in their wake, eventually colonizing the entire region. More recently, foreign corporations have acquired huge tracts of land to secure food supplies needed abroad, just as the Romans did. In this vast and vivid panorama of history, Martin Meredith follows the fortunes of Africa over a period of 5,000 years. With compelling narrative, he traces the rise and fall of ancient kingdoms and empires; the spread of Christianity and Islam; the enduring quest for gold and other riches; the exploits of explorers and missionaries; and the impact of European colonization. He examines, too, the fate of modern African states and concludes with a glimpse of their future. His cast of characters includes religious leaders, mining magnates, warlords, dictators, and many other legendary figures—among them Mansa Musa, ruler of the medieval Mali empire, said to be the richest man the world has ever known. “I speak of Africa,” Shakespeare wrote, “and of golden joys.” This is history on an epic scale.

*A Primer for Teaching African History* Trevor R. Getz 2018-03-22 A Primer for Teaching African History is a guide for college and high school teachers who are teaching African history for the first time, for experienced teachers who want to reinvigorate their courses, for those who are training future teachers to prepare their own syllabi, and for teachers who want to incorporate African history into their world history courses. Trevor R. Getz offers design principles aimed at facilitating a classroom experience that will help students navigate new knowledge, historical skills, ethical development, and worldviews. He foregrounds the importance of acknowledging and addressing student preconceptions about Africa, challenging chronological approaches to history, exploring identity and geography as ways to access historical African perspectives, and investigating the potential to engage in questions of ethics that studying African history provides. In his discussions of setting goals, pedagogy, assessment, and syllabus design, Getz draws readers into the process of thinking consciously and strategically about designing courses on African history that will challenge students to think critically about Africa and the discipline of history.

**The Black Holocaust For Beginners** S.E. Anderson 2007-08-21 Virtually anyone, anywhere knows that six million Jewish human beings were killed in the Jewish Holocaust. But how many African human beings were killed in the Black Holocaust – from the start of the European slave trade (c. 1500) to the Civil War (1865)? And how many were enslaved? The Black Holocaust, a travesty that killed millions of African human beings, is the most underreported major event in world history. A major economic event for Europe and Asia, a near fatal event for Africa, the seminal event in the history of every African American – if not every American! – and most of us cannot answer the simplest question about it. Here is a sample of what you will get from the painstakingly researched, painfully honest **The Black Holocaust For Beginners**: “The total number of slaves imported is not known. It is estimated that nearly 900,000 came to America in the 16th Century, 2.75 million in the 17th Century, 7 million in the 18th, and over 4 million in the 19th – perhaps 15 million in total. Probably every slave imported represented, on average, five corpses in Africa or on the high seas. The American slave trade, therefore, meant the elimination of at least 60 million Africans from their fatherland.” **The Black Holocaust For Beginners** – part indisputably documented chronicle, part passionately engaging narrative, puts the tragic event in plain sight where it belongs! The long overdue book answers all of your questions, sensitively and in great depth.

*The Colonisation of the Southern Tswana, 1870-1900* Kevin Shillington 1985 Settlement of the lands of the Southern Tswana, incorporated since 1977 into the sovereign republic of Bophuthatswana, formed from former homelands in the Orange Free State, Transvaal and northern Cape Province, South Africa. The scope of the study is the Tlhaping, Rolong and Tlharo chieftaincies that lived between the Vaal and Molopo rivers, who were colonized as the Crown Colonies of Griqualand West, 1871-1880 and British Bechuanaland, 1885-1895, and annexed afterwards to Cape Colony. The Rolong living in present-day Botswana are excluded from the study.

[A New History of Tanzania](#) Kimambo, Isaria N. 2019-04-15 Tanzania, the land and the people have been subject of a great deal of historical research, but there remains no readily accessible and concise history of the country. The aim of this volume is to fill that void. A New History of Tanzania takes its name from a lecture series introduced at the University of Dar es Salaam by Professor Isaria Kimambo in 2002. Prior to that, a book titled, A History of Tanzania, had been published in 1969 by East African Publishing House in Nairobi for the Tanzania Historical Association. That book is currently out of print and this is not a reprint. In this book, Prof.

Kimambo has been joined by two other colleagues; Prof. Gregory H. Maddox of Texas Southern University, Houston (USA) and Salvatory S. Nyanto, a Tanzanian, Lecturer at the University of Dar es Salaam, and a Ph.D. candidate at the University of Iowa (USA); together they have produced an outline history of Tanzania that covers all important aspects from antiquity to the present that is different from and richer than its predecessor. Sources from the fields of archaeology, anthropology, biology, genetics and oral tradition have been used to produce this excellent book. A New History of Tanzania is a timely contribution to academic requirements for teaching and learning Tanzania's history. It is also a possible exemplar to the writing of other countries' histories, departing as it does, from the traditional historiography that is influenced by colonial and postcolonial apologists of nefarious external influences on Africa's history. It will also interest other Tanzanians and visitors to Tanzania who are interested in understanding the country from when it was a territory with more than one hundred and twenty ethnic groups, to a nation with an unmistakable identity as it marches forward.

*A History of Modern Africa* Richard J. Reid 2012-01-17 Updated and revised to emphasise long-term perspectives on current issues facing the continent, the new 2nd Edition of A History of Modern Africa recounts the full breadth of Africa's political, economic, and social history over the past two centuries. Adopts a long-term approach to current issues, stressing the importance of nineteenth-century and deeper indigenous dynamics in explaining Africa's later twentieth-century challenges Places a greater focus on African agency, especially during the colonial encounter Includes more in-depth coverage of non-Anglophone Africa Offers expanded coverage of the post-colonial era to take account of recent developments, including the conflict in Darfur and the political unrest of 2011 in Egypt, Tunisia, and Libya '**Throwing Down White Man**' Peter Sanders 2011 "I struck White Man, I threw him down' - this shout of triumph, taken from the vivid and dramatic praise poems of Chief Maama, a senior grandson of Mshoeshoe, encapsulates how completely the bonds of loyalty between the Basotho and their Cape Colonial rulers had been shattered. When in 1871 Britain handed over control of Basutoland to the Cape Colony, the Cape's attack on chiefly powers had been welcomed by many of the ordinary people. But then, in the interests of wider security and control, the Cape government determined to disarm the Basotho and thereby provoked a rebellion, the Gun War of 1880/81, from which the Basotho emerged undefeated and defiant. Their victory was of lasting significance and resulted in the withdrawal of Cape rule, the re-establishment of imperial rule, and the triumph of the chiefs. Peter Sanders, a distinguished historian of Lesotho, tells, using oral traditions and archival sources, the story of these years, placing at the centre of the book a compelling and absorbing study of the Gun War itself."--Publisher's website.

*The History of Africa* Molefi Kete Asante 2014-10-10 There is a paradox about Africa: it remains a subject that attracts considerable attention yet rarely is there a full appreciation of its complexity. African historiography has typically consisted of writing Africa for Europe—instead of writing Africa for itself, as itself, from its own perspectives. The History of Africa redresses this by letting the perspectives of Africans themselves take center stage. Authoritative and comprehensive, this book provides a wide-ranging history of Africa from earliest prehistory to the present day—using the cultural, social, political, and economic lenses of Africa as instruments to illuminate the ordinary lives of Africans. The result is a fresh survey that includes a wealth of indigenous ideas, African concepts, and traditional outlooks that have escaped the writing of African history in the West. The new edition includes information on the Arab Spring, the rise of FrancAfrica, the presence of the Chinese in Africa, and the birth of South Sudan. The chapters go up to the present day, addressing US President Barack Obama's policies toward Africa. A new companion website provides students and scholars of Africa with access to a wealth of supporting resources for each chapter, including images, video and audio clips, and links to sites for further research. This straightforward, illustrated, and factual text allows the reader to access the major developments, personalities, and events on the African continent. This groundbreaking survey is an indispensable guide to African history.

**A History of Race in Muslim West Africa, 1600–1960** Bruce S. Hall 2011-06-06 The mobilization of local ideas about racial difference has been important in generating, and intensifying, civil wars that have occurred since the end of colonial rule in all of the countries that straddle the southern edge of the Sahara Desert. From Sudan to Mauritania, the racial categories deployed in contemporary conflicts often harken back to an older history in which blackness could be equated with slavery and non-blackness with predatory and uncivilized banditry. This book traces the development of arguments about race over a period of more than 350 years in one important place along the southern edge of the Sahara Desert: the Niger Bend in northern Mali. Using Arabic documents held in Timbuktu, as well as local colonial sources in ~~*History of Africa*~~ interviews, Bruce S. Hall reconstructs an African intellectual history of race that long predated colonial conquest, and which has continued to orient inter-African relations ever since.
