The Nature and Measurement of Competency in English Charles Raymond Cooper 1981 In an examination of the implications and effects of the competency testing movement on the discipline of English, the six chapters of this book answer major questions concerning what competency in English is, what is known about the assessment of competence in English, and how minimal competency in English can be defined and assessed. The first chapter presents an account of the origins and development of the competency testing movement, while the second chapter provides a comprehensive review of the best current research and theory on the acquisition, development, and use of language. The third chapter examines the limitations of various approaches to testing reading ability and then proposes a four-part competency test composed of several test formats. Chapter four outlines a theory-based procedure for assessing competence, and chapter five explores the problems of assessing media competency. The last chapter discusses the politics of minimum competency. (HTH)

Writing Theology Well Lucretia B. Yaghjian 2006-11-24 In its creative integration of the disciplines of writing, rhetoric, and theology, *Writing Theology Well* provides a standard text for theological educators engaged in the teaching and mentoring of writing across the theological curriculum. As a theological rhetoric, it will also encourage excellence in theological writing in the public domain by helping to equip students for their wider vocations as writers, preachers, and communicators in a variety of ministerial and professional contexts.

The Right to Literacy in Secondary Schools Suzanne Plaut 2009 Challenges educators to view adolescent literacy as a 'civil right' that enables students to understand essential content and to develop as independent learners. This book offers frameworks to help teachers implement those practices in their own schools. It is suitable for professional learning communities, study groups, and individual teachers.

The Confident Student Carol C. Kanar 2013-01-01 Building confidence through accomplishment remains at the heart of THE CONFIDENT STUDENT. This practical and accessible text features self-discovery, self-assessment and confidence-building activities to keep students motivated and help them develop the skills they need to be successful in all of their courses. The Eighth Edition delivers more explicit critical-thinking instruction in every chapter. New Thinking with Bloom activities encourage active reading and processing of information by guiding students through the six levels of thinking as they reflect on chapter concepts. In addition, more intentional practice of reflective thinking is provided in the fully revised Your Reflections exercises at the end of every chapter. New questions and writing prompts invite students to engage in self-reflection for the purpose of assessing progress, discovering strengths, and addressing weaknesses. Writing Center Research Paula Gillespie 2001-12-01 There are writing centers at almost every college and university in the United States, and there is an emerging body of professional discourse, research, and writing about them. The goal of this book is to open, formalize, and further the dialogue about research in and about writing centers. The original essays in this volume, all written by writing center researchers, directly address current concerns in several ways: they encourage studies, data collection, and publication by offering detailed, reflective accounts of research; they encourage a diversity of approaches by demonstrating a range of methodologies (e.g., ethnography, longitudinal case study; rhetorical analysis, teacher research) available to both veteran and novice writing center professionals; they advance an ongoing conversation about writing center research by explicitly addressing epistemological and ethical issues. The book aims to encourage and guide other researchers, while at the same time offering new knowledge that has resulted from the studies it analyzes.

Writing the Past, Inscribing the Future Nancy K. Florida 1995 Located at the juncture of literature, history, and anthropology, *Writing the Past, Inscribing the Future* charts a strategy of how one might read a traditional text of non-Western historical literature in order to generate, with it, an opening for the future. This book does so by taking seriously a haunting work of historical prophecy inscribed in the nineteenth century by a royal Javanese exile—working through this writing of a colonized past to suggest the reconfiguration of the postcolonial future that this history itself apparently intends. After introducing the colonial and postcolonial orientalist projects that would fix the meaning of traditional writing in Java, Nancy K. Florida provides a nuanced translation of this particular traditional history, a history composed in poetry as the dream of a mysterious exile. She then undertakes a richly textured reading of the poem that discloses how it manages to escape the fixing of "tradition." Adopting a dialogic strategy of reading, Florida writes to extend—as the work's Javanese author demands—this history's prophetic potential into a more global register. *Babad Jaka Tingkir*, the historical prophecy that *Writing the Past, Inscribing the Future* translates and reads, is uniquely suited for such a study. Composing an engaging history of the emergence of Islamic power in central Java around the turn of the sixteenth century, *Babad Jaka Tingkir* was written from the vantage of colonial exile to contest the more dominant dynastic historical traditions of nineteenth-century court literature. Florida reveals how this history's episodic form and focus on characters at the margins of the social order work to disrupt the genealogical claims of conventional royal historiography—thus prophetically to open the possibility of an alternative future.

Writing Theology Well 2nd Edition Lucretia B. Yaghjian 2015-09-24 A working guide for students conducting theological writing and research

on theology and biblical studies courses, this book integrates the disciplines of writing, rhetoric, and theology, to provide a standard text for the teaching and mentoring of writing across the theological curriculum. As a theological rhetoric, it also encourages excellence in theological writing in the public domain by helping to equip students for their wider vocations as writers, preachers, and communicators in a variety of ministerial and professional contexts. This 2nd Edition includes new chapters on 'Writing Theology in a New Language', which explores the linguistic and cultural challenges of writing theology well in a non-native language, and 'Writing and Learning Theology in an Electronic Age', addressed to distance learning students learning to write theology well from online courses, and dealing with the technologies necessary to do so.

Dwelling Portably 2009-2015 Bert Davis 2014-11-29 The Dwelling Portably series returns with Holly and Bert's newest contribution to their fourth decade of DIY homesteading. The 2009-2015 collection assembles their correspondence and what they've picked up over the last six years, lovingly crafted on manual typewriters from a remote Oregon outpost. Literary Luxuries Joe David Bellamy 1995 From the Iowa Writers Workshop to the halls of Congress and the National Endowment for the Arts, from the world of literary magazines and writers' conferences to the bizarre realm of the late-twentieth-century American English department, *Literary Luxuries* takes the reader on a guided tour of American literary life in our time—and the forces threatening its existence. Joe David Bellamy has been a significant figure on the literary scene during the last three decades; as a "literary Everyman," he offers in *Literary Luxuries* a distinctive and valuable perspective on the culture wars, on education and the imagination, on particular writers and major literary and aesthetic movements, on the role of government in fostering cultural development, and on the day-to-day strife of the writer's life in the United States. As director of the literature program of the National Endowment for the Arts, Bellamy had the unenviable task of trying to persuade Congress and ordinary citizens that American literature is worthy of support, and in *Literary Luxuries* he continues that debate and helps us to understand its implications: "Literature is our national treasury of language and style and our best reckoning about human life, as it is lived in this time and place." Part memoir, part critique, part impassioned defense of American literary culture and the values it espouses and struggles to uphold, *Literary Luxuries* offers unforgettable commentary on the literary life in the United States during the last decades of the twentieth century as described from the perspective of one of its key participants.

Disrupt This! Karen J. Head 2017-07-04 In this smart and incisive work, Karen J. Head describes her experience teaching a Massive Open Online Course (MOOC) and the attendant pressure on professors, especially those in the humanities, to embrace new technologies in the STEM era. And yet, as she argues, MOOCs are just the latest example of the near-religious faith that some universities have in the promise of technological advances. As a teacher of rhetoric, Head is well versed at sniffing out the sophistry embedded in the tech jargon increasingly rife in the academy. *Disrupt This!* is a broader-based critique of the promises of technological "disruption" and the impact of Silicon Valley thinking on an unsuspecting, ill-prepared, and often gullible university community grasping for relevance, while remaining in thrall to the technologists.

The Pedagogy of Confidence Yvette Jackson 2015-04-24 In her new book, prominent professional developer Yvette Jackson focuses on students' strengths, rather than their weaknesses, to reinvigorate educators to inspire learning and high intellectual performance. Through the lens of educational psychology and historical reforms, Jackson responds to the faltering motivation and confidence of educators in terms of its effects on closing the achievement gap. The author seeks to rekindle the belief in the vast capacity of underachieving urban students, and offers strategies to help educators inspire intellectual performance. Jackson proposes that a paradigm shift towards a focus on strengths will reinvigorate educators' passion for teaching and belief in their ability to raise the intellectual achievement of their students. Jackson addresses how educators can systematically support the development of motivation, reflective and cognitive skills, and high performance when standards and

assessments are predisposed to non-conceptual methods. Furthermore, she examines challenges and offers strategies for dealing with cultural disconnects, the influence of new technologies, and language preferences of students.

ESL Readers and Writers in Higher Education Norman W. Evans 2015-06-12 *ESL Readers and Writers in Higher Education* describes the challenges ESL students in U.S. postsecondary institutions face when studying in a second language, and offers suggestions for how teachers, advisors, tutors, and institutions might provide support that meets the reading and writing needs of this very important student population. Because the ESL profession as a whole, including what professionals are doing in the classroom, sits under the umbrella of an institutional response to a language-related challenge, some solutions aimed at helping students achieve optimal proficiency lie outside of the classroom. As such, this book is based on the assertion that language development support is not the sole responsibility of language teachers. Everyone on campuses that hosts ESL students bears some responsibility for these students' language development. Chapters are therefore, intentionally adapted to appeal to a wide variety of readers from classroom teachers, and teachers in training, to admissions officers, academic advisors, and international student advisors.

Writing in Psychology Scott A. Miller 2022-06-17 The second edition of *Writing in Psychology* by Scott A. Miller is a comprehensive guide to addressing the most challenging issues that students face while writing about psychology, including what to say and how to say it. It offers practical tools to overcome the challenges and create an engaging work. The book is a valuable resource for helping readers become better writers of psychology with the aid of various helpful learning tools, which provide detailed coverage of how to write empirical reviews, research proposals, literature reviews, term papers, and posters. It examines examples from journal articles that give readers a grasp of the content they will encounter in writing psychological reports. Furthermore, it includes exercises that provide an opportunity to apply the points conveyed in each chapter, examples of ways to avoid the most common mistakes made by students, and a guide to the best practices for improving one's writing. Readers will also develop a thorough understanding of how to write in an engaging yet accurate style, using grammatical and word use rules that govern writing in general, and the rules of seventh edition APA (American Psychological Association) Publication Manual that determine the expression of that content. Throughout, the book emphasizes inclusion, diversity, and fair treatment of those with whom psychologists deal, in research and writing. The book will benefit anyone looking for guidance on how to write about psychological content. It is ideal for research scholars and psychology students as a primary text for writing in psychology courses and a supplement for graduate or advanced undergraduate courses in research design or research methods.

The Writing of the Disaster Maurice Blanchot 2015-11 Modern history is haunted by the disasters of the century--world wars, concentration camps, Hiroshima, and the Holocaust--grief, anger, terror, and loss beyond words, but still close, still impending. How can we write or think about disaster when by its very nature it defies speech and compels silence, burns books and shatters meaning? *The Writing of the Disaster* reflects upon efforts to abide in disaster's infinite threat. First published in French in 1980, it takes up the most serious tasks of writing: to describe, explain, and redeem when possible, and to admit what is not possible. Neither offers consolation. Maurice Blanchot has been praised on both sides of the Atlantic for his fiction and criticism. The philosopher Emmanuel Levinas once remarked that Blanchot's writing is a "language of pure transcendence, without correlative." Literary theorist and critic Geoffrey Hartman remarked that Blanchot's influence on contemporary writers "cannot be overestimated."

The new edition includes: More information on teaching middle-school students Additional strategies for helping children with challenging behavior Updated stories and examples from real classrooms. "Teaching Children to Care offers educators a practical guide to one of the most effective social and emotional learning programs I know of. The Responsive Classroom approach creates an ideal environment for learning—a pioneering program every teacher should know about." - Daniel Goleman, Author of *Emotional Intelligence* "I spent one whole summer reading *Teaching Children to Care*. It was like a rebirth for me. This book helped direct my professional development. After reading it, I had a path to follow. I now look forward to rereading this book each August to refresh and reinforce my ability to effectively manage a social curriculum in my classroom." - Gail Zimmerman, second-grade teacher, Jackson Mann Elementary School, Boston, MA

Small Teaching James M. Lang 2016-03-07 Employ cognitive theory in the classroom every day Research into how we learn has opened the door for utilizing cognitive theory to facilitate better student learning. But that's easier said than done. Many books about cognitive theory introduce radical but impractical theories, failing to make the connection to the classroom. In *Small Teaching*, James Lang presents a strategy for improving student learning with a series of modest but powerful changes that make a big difference—many of which can be put into practice in a single class period. These strategies are designed to bridge the chasm between primary research and the classroom environment in a way that can be implemented by any faculty in any discipline, and even integrated into pre-existing teaching techniques. Learn, for example: How does one become good at retrieving knowledge from memory? How does making predictions now help us learn in the future? How do instructors instill fixed or growth mindsets in their students? Each chapter introduces a basic concept in cognitive theory, explains when and how it should be employed, and provides firm examples of how the intervention has been or could be used in a variety of disciplines. Small teaching techniques include brief classroom or online learning activities, one-time interventions, and small modifications in course design or communication with students.
