Glamour, Interrupted Steven Cojocarú 2009-10-13 Before Steven Cojocarú was diagnosed with polycystic kidney disease, he could never have imagined himself living anything other than a high-glam Hollywood lifestyle. A bon vivant on two coasts, he held jobs as both the red carpet guru for Entertainment Tonight and the fashion correspondent for the Today show, hauling his suitcase full of flat irons and designer boots from New York to Los Angeles and back again, every week. He was Cojo, professional glamour boy with a barbed tongue who went shopping with J.Lo and traded fashion tips with Gwyneth. But a painful and ironically unglamorous reality would begin to form itself around his life, and Cojo found himself with a new Rolodex of A-List friends: The kidney team at Cedars-Sinai Medical Center in Los Angeles. In a memoir that moves beyond the celebrity, *Glamour, Interrupted* is an inspiring and darkly humorous story about how, in the midst of a world obsessed with youth and beauty, Cojo survived what turned out to be the fight of his life. From drug-induced meltdowns to waking up in the hospital on life support, Cojo recounts his desperate hunt for a new kidney—after a failed transplant and months of dialysis—that ended with a twist of fate and forged an even stronger bond with his mother. With a bit of eye cream, a little concealer, and just a touch of bronzer, he found a strength he didn't know he had, and used his unflinching sense of humor to help him survive.

The Failure of Success Lawrence R. Samuel 2020-06-04 This history of success in the United States illustrates the degree to which personal and professional accomplishments have determined overall life satisfaction. Beyond serving as a guide to the past, present, and future of success in America, especially that found in the business world, this book poses a provocative argument: the standard practice of employing outer-directed measures of success, notably wealth, power, and fame, has worked to the psychological disadvantage of many Americans. More specifically, it shows that a comparative and competitive view of success has made a significant number of individuals feel less successful than if more inner-directed measures were used. Ironically then, the traditional model of success in the United States has been largely a failure. This work offers historians, practitioners, and general readers of non-fiction a blueprint for how to adopt a more meaningful and positive model of success in their everyday lives.
